CIM 1000 Trowel Grade cures to form an elastomeric, flexible, UV stable, and impermeable barrier to water. CIM also bonds aggressively to most substrates.

The CIM 1000 Trowel Grade packaged in dual cartridges is dispensed using a manual, air, or battery powered caulking gun. The material mixes instantly as it is moved through the static mixer. The cartridges are ideal for small waterproofing applications such as penetrations, joints, cracks and many other repairs.

**No Mess
Easy To Use**

Coverage for coating = 4.5 square feet per cartridge
